A Touchstone Energy Cooperative

West Central Electric Cooperative, Inc. ~ Serving our members' needs since 1939

Electrical Safety Month

Don't get lax and overlook electrical hazards

We use electricity every day. This invisible force has become so commonplace that it can be all too easy to over-

look possible electrical hazards, even in the safety of our own homes. May is Electrical Safety Month, and a good time to put the most important safety tool you have—your brain—to work.

“When it comes to electrical safety, knowledge is key,” says Amber Sabin, Safe Electricity Advisory Board member. “Knowing what to be on the lookout for and knowing the safe steps to take can make all the difference in

preventing accidents.”

Safe Electricity offers the following home safety tips to help arm you with the knowledge to stay safe and help others stay safe.

Always read and understand the operator's manual before using an appliance or tool.

Make sure recognized safety laboratories, like UL, ETL, or CSA have certi-

Cooperative announces changes in fees, deposit requirements

Changes in disconnect fees and deposit requirements approved by West Central Electric's board of directors at their March 22 meeting are now in effect, according to General Manager Mike Gray. These changes are designed to make it easier for members keep their bills paid on time and avoid penalties.

•Pre-Pay

As a pre-paid member, the normal membership deposit is not required, and members are not subject to normal collection fees.

Pre-Pay members are able to add money (\$5 or more) to their accounts at any time of the day or night, 365 days a year, in any increments they choose. Members are able to check their daily usage and receive alerts when funds on the account are getting low.

Current members who convert to pre-pay will have their existing deposit (if applicable) applied toward any outstanding balance, with the remaining credit (if applicable) applied to their pre-paid service. Any balance due to WCE for energy used but not billed before signing up for pre-pay will now have 25 percent of the payment (rather than 50 percent) applied to the unpaid balance while the remaining 75 percent goes toward the pre-pay account.

•Account Deposits

Members signing up for service, or those disconnected for non-payment who require a deposit will see those amounts change.

Results of a credit assessment will determine whether a deposit is \$250 or \$500. Those deposits will remain on the accounts as long as the member is on cooperative lines. If a member moves within the service area, the deposit may be transferred to the new account. Members moving off cooperative lines will have deposits applied to their final bill, with any remaining money refunded to the member.

Members who are disconnected for non-payment, and wish to reconnect without a deposit may sign up for the pre-pay service.

Back row (l-r) Randy Dowell, Margie Storck, Dennis Knipmeyer, Donna Matthews and Sally Davidson. Not pictured: Shelly Drecktrah.

Operation Round-Up program is moving forward

The West Central Electric Foundation Board is in place and held their first meeting in March to set policies and procedures. The West Central Electric Foundation Board is the group of members who will be responsible for disbursing funds received to area groups and organizations through the newly-formed Operation Round-Up program. The program will allow members' bills to be rounded up to the nearest dollar each month with proceeds being contributed to area organizations such as emergency departments, schools, community groups, etc. to assist with community projects and programs.

Members are reminded that every one will be automatically enrolled in this program, however, you may contact WCE with your request to opt

information concerning the round-up program in their bills.

The average member contribution will total around \$6 per year, with

out if you do not wish to participate. Members will also soon be receiving

the maximum being just over \$11. Donations are also tax-deductible.

Wilkinson and DeHaven join the ranks of West Central line crews

West Central Electric General Manager Mike Gray has announced the official hiring of two apprentice linemen who have joined line crews in Higginsville and Oak Grove.

Wyatt Wilkinson and Jonathan DeHaven, both recipients of the West Central Electric and State Technical College Electrical Distribution Systems Scholarship, began working at the cooperative in November, and completed their probation periods in March. Wilkinson of Higginsville is working out of the Oak Grove location. DeHaven, also of Higginsville, is working out of the Higginsville location.

Both spent time working at the cooperative during a mid-school internship, and were anxious to return to WCE as full-time employees.

"I am looking forward to using the knowledge I have learned through school and on the job to be a reputable employee for WCE," DeHaven said.

Wilkinson said he is looking forward to becoming a successful journeyman lineman.

Their duties on their respective crews will be to assist the journeyman linemen in building new services, repairing outages and installing meters. Both will

fied the electrical appliance, tools, and cords you plan on using.

Never use a product with a damaged electrical cord.

Never use extension cords on a permanent basis.

Only use extension cords properly rated for the devices you plan to plug into it.

For the safety of children in your home, install tamper-resistant outlets or protective coverings.

If your outlets are warm to the touch, immediately shut them off at the circuit breaker, and contact a qualified electrician to make repairs.

Install ground fault circuit interrupter

(GFCIs) in areas that may be wet or damp. GFCIs help protect against electrical shock. Use the test and reset button monthly to ensure they are working properly.

Never use power tools outdoors if it is raining or the ground is wet.

If an appliance repeatedly blows a fuse, trips a circuit breaker, or has given you an electrical shock, immediately unplug it and have it repaired or replaced.

"Take some time to learn about electrical safety and share important safety tips with others," encourages Sabin.

(Coverage will be published in the

June 2018 issue of *Electric News*.)

The finalists presented their essays during an oral competition at 7 p.m. Thursday, April 5 in Higginsville. The top four finalists were named West Central's delegates on the 2018 Rural Electric Youth Tour to Washington, D.C. June 8-14, 2018.

The delegates will travel with more than 100 other representatives from around the state to Washington, D.C.

where they will join approximately 1,500 other high school juniors from across the nation. While on the tour, delegates will visit several historic memorials and monuments, the Smithsonian Museums, and Arlington National Cemetery to witness the changing of the guard ceremony. They will also have the opportunity to visit with their senators and representatives. Other activities planned include a youth conference and a cruise on the Potomac River.

Five finalists received a trip to CYCLE in Jefferson City July 18-20, 2018. Also an excellent leadership opportunity, CYCLE delegates will spend a day at the state Capitol Building, as well as learn more about the cooperative way of business and participate in various leadership activities. CYCLE, sponsored by the Association of Missouri Electric Cooperatives, also has a history of outstanding motivational speakers which have included individuals such as Darrell Scott, father of Rachel Scott who was killed in 1999 at Columbine High School, and wheelchair basket-
